

5. FIELD ENGINEERING DIVISION - 11 August 1986

WOOD - INTERNET Relay Tower at Hattontown

1. [redacted] and I met this STAT  
afternoon to discuss the happenings concerning Fairfax County Supervisor,  
Mrs. Pennino's letter dated 6 August and my file on the subject tower. Al  
and John reviewed the file and I gave them a briefing on the background  
concerning this matter. Both men saw nothing wrong with what OTI, Bell  
Atlantic, or FBIS has done to date.

2. After a long discussion on the best possible way to proceed from  
here, Al said that he and John would try to set up an appointment with  
Mrs. Pennino and discuss the matter in person at her office. Al will  
provide any further information concerning when the meeting will be held and  
its results
